

Petition to Reinstate Dr. Art Siebens

Published by on Jul 25, 2008

Petition History and Background:

Dr. Siebens is a talented, dedicated and beloved teacher and mentor who has had a deep and nurturing impact on the lives of many Wilson students.

The removal of Dr. Siebens from his longstanding position would be a great loss to future Wilson students, denying them the opportunity to benefit from his knowledge and the skills, passion, enthusiasm, humor, and love he brings to teaching.

ABOUT THE WILSON RESTRUCTURING

Under the federal No Child Left Behind (NCLB) law, reconstitution of school staff (faculty replacement) is one of the options available for restructuring a school which has failed to make Adequate Yearly Progress (AYP) for five years, as measured by annual test scores and percentages of enrolled students from all demographic categories who were actually tested. However, the NCLB law specifically links faculty reconstitution to those teachers who were responsible for the school's failure to reach AYP goals. To measure AYP, the DC Public Schools only test one grade at the high school level: Grade 10. Dr. Siebens was not assigned to teach 10th grade students this year or 2006-07, the last year for which AYP scores were available. For the past several years, he has taught Anatomy & Physiology, Botany, and AP Biology to 11th or 12th grade students.

ABOUT DR. SIEBENS

The replacement of Dr. Siebens came as a surprise to him and to all of us in the Wilson HS community, because it is not consistent with the NCLB restructuring and because he is one of Wilson's most effective teachers. As Wilson HS goes through restructuring, we propose that Dr. Siebens be retained. We will most definitely need him as we rebuild our school's capacity to help all students achieve academic success.

For the past eighteen years, Dr. Siebens' skill and dedication have been evident in the uncommonly outstanding scores his students have received on the standardized, national AP exam. Since 1994, over 70% of his students earned scores of 3 or higher, indicating introductory college-level mastery of the subject. On the June 2007 AP exam, all seventeen DCPS students who received the highest score of 5 on the AP exam were students of Dr. Siebens. Fourteen of the fifteen who received a score of 4, and ten of the eleven who received a score of 3 were his students. And he brings his same passionate, creative and effective teaching approach to his non-AP classes: approximately two-thirds of the students he has taught at Wilson were not in AP courses.

Dr. Siebens' students are so successful because he is dedicated to their success. He supplements lectures and homework assignments with two CD's of original songs he performs that explain the many complex ideas and processes of biology to help students understand and master concepts and vocabulary. These CD's are used by biology teachers and students across the nation. To ensure his students are learning and retaining the material, he hosts extra study sessions during lunch, after school and on school holidays. He sets up a peer-tutoring buddy system in which paired students can receive extra credit.

Dr. Siebens is precisely the kind of teacher Wilson cannot afford to lose and who should be back in his classroom where he belongs

ABOUT THE DECISION TO REMOVE DR. SIEBENS

The decision to remove Dr. Siebens was made by an administrator who had been at Wilson for barely three months. This decision was later reaffirmed by Wilson's new principal who had just started at the school. Neither the administrator nor the new principal provided a specific explanation to Dr. Siebens for his removal, which is not only required under the collective bargaining agreement with the teachers union but is a fundamental due process right. This

secretive decision was not backed by any documentation, just the insidious and baseless explanation that "You don't fit in." This decision should be rescinded immediately. As the students for whom these decisions were made, we refuse to sit by and watch Wilson lose one of its greatest assets.

Since the decision to remove Dr. Siebens became known, current and past students of Dr. Siebens, their parents and other supporters have rallied to his defense in an effort to have him reinstated and returned to his classroom.

WHAT YOU CAN DO TO HELP

We would be grateful if you will:
