

All,

We are now at **478 signatures** of former and current Wilson students and their parents supporting the reinstatement of Dr. Siebens to the Wilson faculty. That we have 478 signatures in only 6 days over summer vacation is remarkable, and the support and comments left by signors is overwhelming. More! More!!
Please continue to spread the word.

In response to all the requests we have been getting for additional information, resources and core documents, **we've launched our website this morning**. Please visit it, check it out and let us know what additional elements you would like to see:

<http://www.reinstatedart.com>

Please send this link to your friends and colleagues around the world so that they can be aware of our cause and help us to achieve our goal. The more people who are aware and involved, the better!

Best,

Paul
